Thursday Check-in

Check-in will begin at NorthRidge Plymouth on Thursday 8/14 at 8:15am. When you arrive, you'll drop off luggage outside, check-in medication, and you can see your students' cabin and team roster. We will do a quick rally before departure.

Medication

If your student has medication they need to bring to camp, you will check it in with our medical volunteers upon arrival on Thursday. They will manage and distribute medication while we are at camp. Please put medication in a Zip-loc bag labeled with their name, and include any instructions in regard to dosage and frequency. Please be sure to pick-up your medications on Sunday upon return!

Electronics

Our policy is simple... we allow students to bring and use phones and electronics, as long as they are used appropriately and in a way that is not distracting. We want students to be able to take photos and stay in contact with parents. However, we ask that phones and electronics are not used during sessions, small groups, or in a way that's excessive or distracting from building relationships with friends and with God.

Sessions

All of our sessions will include games, worship, and a biblical message to inspire and challenge our students in their faith. Please be praying for God to move in a powerful way!

Expectations

It is expected that every student be respectful of the camp property, staff, leaders, and one another. It is expected that every student participate and engage in our sessions, small group discussions, and large group activities. If you think your student may be unable to meet these requirements, please reach out and have a conversation with someone from our team before registering them. We want to create the best environment possible to allow every student an opportunity to have a great experience and hear and respond to the Gospel.
